

Magic Sorb

Superconcentrated Sorbent

Magic Sorb is a blend of inert, inorganic, minerals. It contains no hazardous ingredients as defined by the U.S. Environmental Protection Agency and the U.S. Occupational Safety and Health Administration. Magic Sorb allows quick and easy cleanup of aggressive* and highly viscous chemicals as well as oil and solvents.

FEATURES AND BENEFITS:

- Works on all chemicals* and viscosities*.
- Cleans spills instantly and completely.
- 
- Small particle size facilitates removal of residue from surface.
- Passes the paint filter test to determine free liquids.
- Not a sit and soak sorbent, prevents slips and tracking.
- Fast and easy cleanup reduces downtime.
- Special non-dusting formula reduces abrasion problems.
- Super concentrated to reduce required amount of absorbent.
- Reduces waste disposal by up to 75%.
- 2-year shelf life-bag must be resealed after each use.

COMPETITIVE ADVANTAGES:

- Hazardous waste costs are greatly reduced.
- Minimize employee exposure to hazardous vapors from spilled liquid.
- Particularly effective for aggressive* and highly viscous chemicals.

APPLICATIONS:

- Quickly absorbs large amounts of spilled aggressive* or unknown liquids.
- Quick emergency response to aggressive spills by placing strategically in areas where the potential of an accidental spill may occur, e.g., chemical storage areas, laboratories, loading docks and chemical processing equipment.
- Absorbs paint and other viscous liquids quickly and effectively, resulting in a dry, safer surface.

ORDERING INFORMATION:			
Description	Stock No.	Unit Size	Units/Case
Particulate	48000	25 lbs.	40
Mitey-Pak	48050	7 lbs.	4
Magic Sorb Sock	48100	3" x 42"	6

* Except Hydrofluoric Acid.
